

QuickBooks

Point of Sale Desktop 18.0

- ✓ **Handles sales**, credit card processing, inventory management, customer tracking.
- ✓ **Higher credit card security standards:** this product is Chip & PIN (EMV) compliant.
- ✓ **Real-time inventory tracking** to identify what's in stock, what's hot, and what needs to be reordered.
- ✓ **Reporting tools** to track customer interests and provide better, personalized services,
- ✓ **Integration capabilities** to electronically transfer sales information to QuickBooks Accounting software, eliminating dual entries and data entry errors.

Ingenico

Smart Capture Device

When paired with the Ingenico iSC Touch 250, you are able to take all forms of payments, including credit cards, debit cards, cash, NFC payments and more. In addition to meeting the highest standards of processing security each payment is reconciled in QuickBooks.
